

Abdelhai jamal
Full stack web Developer

Sudan | (249)123763188 | <https://abdelhajamal.com> | abdelhajamal95@gmail.com

About

As a self-taught web developer, I have developed self-discipline and time management when I had difficult times in my learning process, I stayed positive and continued to pursue my goals. I am confident in my technical and personal abilities. I see life as a journey of learning, I live by learning new things every day. Denial is also my call to grow and learn.

Projects

Type conversion app

Built this app to help beginners eliminate the confusing part of JavaScript type coercion.

- Live: <https://typeconversion.netlify.app>.
- Code: <https://github.com/abdelhai95/type-conversion-app>.

Tints and shades generator

Built this app to help people get inspiration by trying out different colors and see their different shades.

- Live: <https://tintsandshadesgenerator.netlify.app>.
- Code: <https://github.com/abdelhai95/tints-shades-generator>.
